PROFESSIONAL SUMMARY

Backend .NET Developer with **2+ years of experience** building scalable and secure REST APIs using ASP.NET Core (.NET 6/7), Dapper, and SQL Server. Skilled in performance optimization, multi-tenant SaaS systems, and API security. Experienced in healthcare and financial analytics domains with strong expertise in database-driven applications and real-time data processing. Available as an Immediate Joiner.

TECHNICAL SKILLS

- **Languages:** C#, SQL, Core Java
 - **Frameworks:** ASP.NET Core (.NET 6/7), ABP Framework
 - **ORM/Data Access:** Entity Framework Core, Dapper, LINQ
 - **Databases:** MS-SQL, MySQL
 - **Frontend Basics:** HTML, CSS, JavaScript, React
 - **Concepts:** Web APIs, OOPS, Multi-Tenant Architecture, Repository Pattern, Unit of Work, MVC
 - **Security:** JWT Authentication, Role-Based Permissions
 - **Tools:** Git, Postman, SSMS, Visual Studio
 - **Other:** Razorpay Integration, API Debugging, Performance Optimization
-

WORK EXPERIENCE

Software Developer | Peracto Infotech Pvt. Ltd. | May 2024 – Present

- Built and maintained REST APIs for SaaS healthcare and financial platforms using ASP.NET Core (.NET 6/7).
 - Designed optimized SQL Server stored procedures, reducing query execution time significantly.
 - Implemented JWT authentication and role-based authorization for secure applications.
 - Processed large datasets (77+ medical parameters per record) for analytics.
 - Integrated Razorpay payment gateway, email services, and AI-based report generation.
 - Developed multi-tenant architecture ensuring tenant-specific data isolation.
 - Converted AI-generated HTML reports into downloadable PDFs using DinkToPdf, PuppeteerSharp, and RazorLight.
-

PROJECTS

ActiveX – SaaS Healthcare Platform | Peracto Infotech | Oct 2024 – Present

- *Developed APIs to process large-scale medical device data (77+ health parameters)*
- *Built analytics APIs providing day-wise, month-wise, and yearly patient health insights*
- *Integrated secure payment gateway (Razorpay) with transaction validation and recovery handling*
- *Implemented automated AI-based report generation and PDF export functionality*

PL Monitor – Financial Analytics Platform | Peracto Infotech | May 2024 – Jan 2026

- Developed APIs to generate quarterly and annual financial reports with calculated metrics
- Implemented complex stored procedures with multiple result sets for financial data processing

- Designed and built APIs for report grouping, aggregation, and ordered financial insights
- Optimized database performance using Table-Valued Parameters (TVPs) and reduced DB calls

Personal Portfolio Website | Self-Project

- Designed and developed a responsive portfolio website to showcase projects and skills.
- Built using React, JavaScript, HTML, and CSS with modern UI principles.
- Deployed on GitHub Pages for public access.
- **Technologies:** React, JavaScript, HTML, CSS, GitHub Pages

Swaraansh Music Ticket Management System | Personal Project | Apr 2025 – May 2025

- Developed an ASP.NET Web Forms application for music event ticket management.
- Implemented dynamic ticket generation, PDF ticket download, CSV export, and admin management features.
- **Technologies:** ASP.NET Web Forms, C#, SQL Server, ADO.NET, iTextSharp

Soil Moisture Detection System | Academic Project | 2022 – 2023

- Developed an automated irrigation system to optimize water usage using soil moisture detection.
 - Automated water supply control based on moisture levels to reduce water loss and manual effort.
 - **Technologies:** Arduino Uno, GSM Module, Sensors, Motor
-

INTERNSHIP EXPERIENCE

PHP Developer Intern | Decode Digital (Oct 2023 – Dec 2023)

- Developed Referral Management System using PHP, HTML, CSS, Bootstrap, JavaScript.

Social Work Intern | Rail Bikash Much (Jan 2023 – Feb 2023)

- Organized community support and awareness initiatives.
-

EDUCATION

- **B.Sc. Computer Science** – Ramniranjan Jhunjhunwala College, Ghatkopar (2023) – 85%
 - **HSC** – Saraswati Educational Society College, Thane (2020) – 78%
 - **SSC** – Saraswati Secondary School, Thane (2018) – 96%
-

ACHIEVEMENTS & CERTIFICATIONS

- NSS Volunteer – COVID-19 Vaccination Programme
 - Scholarship Awardee – Merk India Charitable Trust
 - Java Full Stack Development Certification – JSpiders (Dec 2023)
 - Emerging Technologies (June 2022)
-
