PROFESSIONAL SUMMARY

Backend .NET Developer with 2.1 years of experience building and optimizing scalable **Web APIs** in healthcare and financial domains. Skilled in **ASP.NET Core (.NET 6/7)**, **SQL Server performance tuning**, and **secure multi-tenant SaaS systems**. Proven ability to deliver **AI-powered reporting tools**, **payment integrations**, and **real-time analytics** that improve efficiency and business outcomes.

TECHNICAL SKILLS

- **Languages:** C#, SQL, Core Java
 - **Frameworks:** ASP.NET Core (.NET 6/7), ABP Framework
 - **ORM/Data Access:** Entity Framework Core, Dapper, LINQ, ADO.NET
 - **Databases:** MS-SQL, MySQL
 - **Concepts:** REST APIs, OOPS, Multi-Tenant Architecture, Repository Pattern, Unit of Work, MVC
 - **Security:** JWT Authentication, Role-Based Permissions
 - **Tools:** Git, Postman, SSMS, Visual Studio
 - **Other:** Razorpay Integration, API Debugging, Performance Optimization
 - **Frontend Basics:** HTML, CSS, JavaScript, React, Bootstrap
-

WORK EXPERIENCE

Software Developer | Peracto Infotech Pvt. Ltd. | 2024–2026

- Designed and maintained **REST APIs** for SaaS healthcare and financial platforms using ASP.NET Core (.NET 6/7).
 - Optimized **SQL Server stored procedures**, reducing query execution time by 40%.
 - Implemented **JWT authentication** and **role-based authorization**, strengthening application security.
 - Processed large datasets (77+ medical parameters per record) to enable **real-time analytics**.
 - Integrated **Razorpay payment gateway** with transaction validation and recovery handling.
 - Developed **multi-tenant architecture** ensuring complete tenant data isolation.
 - Automated **AI-based report generation** and converted reports into downloadable PDFs using DinkToPdf, PuppeteerSharp, and RazorLight.
-

PROJECTS

ActiveX – SaaS Healthcare Platform | Peracto Infotech | 2024–2026

- *Developed APIs to process 77+ health parameters per patient, improving diagnostic accuracy.*
- *Built analytics APIs providing day-wise, month-wise, and yearly patient health insights.*
- *Integrated secure **Razorpay payment gateway** with transaction validation and recovery handling.*
- *Automated **AI-based report generation**, reducing manual reporting time by 60%.*

PL Monitor – Financial Analytics Platform | Peracto Infotech | 2024–2026

- Developed APIs to generate quarterly and annual financial reports with calculated metrics

- Implemented complex **stored procedures** with multiple result sets for financial data processing
- Designed and built APIs for report grouping, aggregation, and ordered financial insights
- Optimized database performance using Table-Valued Parameters (TVPs) and reduced DB calls

Personal Portfolio Website | Self-Project

- Built a responsive portfolio website using React, JavaScript, HTML, and CSS.
- Deployed on GitHub Pages to showcase skills and projects.

Soil Moisture Detection System | Academic Project | 2022 – 2023

- Developed an automated irrigation system to optimize water usage using soil moisture detection.
 - Automated water supply control based on moisture levels to reduce water loss and manual effort.
 - **Technologies:** Arduino Uno, GSM Module, Sensors, Motor
-

INTERNSHIP EXPERIENCE

PHP Developer Intern | Decode Digital (2023)

- Developed Referral Management System using PHP, HTML, CSS, Bootstrap, JavaScript.

Social Work Intern | Rail Bikash Much (2023)

- Organized community support and awareness initiatives.
-

EDUCATION

- **B.Sc. Computer Science** – Ramniranjan Jhunjhunwala College, Ghatkopar (2023) – 85%
 - **HSC** – Saraswati Educational Society College, Thane (2020) – 78%
 - **SSC** – Saraswati Secondary School, Thane (2018) – 96%
-

ACHIEVEMENTS & CERTIFICATIONS

Technical Certifications

- Java Full Stack Development – JSpiders (2023)
- Emerging Technologies – (2022)

Community Achievements

- NSS Volunteer – COVID-19 Vaccination Programme
 - Scholarship Awardee – Merk India Charitable Trust
-
